PROFESSIONAL SUMMARY

Results-driven Full-Stack Web and Mobile App Developer with expertise in building scalable web applications (MERN stack) and high-performance Android mobile solutions. Proven ability to manage development lifecycles for 100+ users, optimize cloud deployments, and translate complex stakeholder requirements into scalable, high-performance code. Skilled in streamlining deployment overhead through CI/CD automation and Test-Driven Development (TDD).

TECHNICAL SKILLS

- **Web Development:** React.js, Node.js, Express.js, HTML, CSS, REST APIs, Responsive Design.
- **Mobile App Development:** Android (Jetpack Compose), Kotlin, Firebase.
- **Backend & Databases:** Python, JavaScript, SQL, MongoDB.
- **Cloud & DevOps:** AWS, Docker, Kubernetes, CI/CD, GitHub Actions, Git.
- **Methodologies & Soft Skills:** Test-Driven Development (TDD), Object-Oriented Programming (OOP), Agile/Scrum, Team Mentorship.

EXPERIENCE

1M1B (1 Million for 1 Billion)

Technology & Sustainability Fellow

Remote

May 2026 – Present

- Facilitated cross-functional collaboration to evaluate 5 global technology frameworks for system scalability.
- Architected documentation for sustainable software; reduced carbon footprints by 20% through optimized compute allocation.

EDUCATION

B.Sc Computer Science (AI & ML)

Takshashila University | CGPA: 8.60 | May 2027 (Expected)

HSC (2024) & SSLC (2022)

St. Ann's Hr Sec School | Govt Hr Sec School

TECHNICAL PROJECT EXPERIENCE

SynchroTask – Cross-Device Remote PC Controller | Kotlin, Python, Firebase, Win32 APIs, CameraX

- **System Architecture:** Architected a cross-device remote control system (Kotlin/Jetpack Compose, Python) using Firebase Realtime Database for low-latency bidirectional commands, bypassing complex network configurations.
- **OS Integration & Security:** Utilized Windows APIs for remote operations and implemented secure zero-config pairing via Android CameraX/ML Kit QR code scanning.
- **Hardware & Streaming:** Engineered a ~2 FPS throttled screen capture system for live mobile viewing and programmed Windows power-state hooks to trigger instant push alerts via Firebase Cloud Messaging (FCM).

LoanBook – AI-Powered Personal Finance & Loan Tracker | Kotlin, Compose, Room DB, Firebase, ML Kit

- **Intelligent UI:** Developed an offline-first personal finance Android app in Jetpack Compose (MVVM, Coroutines) featuring robust manual data tracking and automated simple/compound interest engines.
- **AI Integration:** Integrated Google ML Kit for offline receipt OCR, leveraging Retrofit to connect extracted data to an LLM for automated attribute parsing and a context-aware natural language chat assistant.
- **Data Synchronization:** Built a resilient hybrid architecture combining Room SQLite with Firebase Firestore for silent background sync and automated cloud-restore upon Google Authentication.

Personal Achievement Dashboard | MERN Stack, Firebase, Chart.js, HTML5 Canvas

- **Analytics Dashboard:** Developed a real-time analytics app to track coding milestones, integrating Canvas to visualize the distribution of solved LeetCode and HackerRank problems.
- **Live-Syncing Architecture:** Built a live-syncing architecture ensuring achievement lists update seamlessly without manual page refreshes.

Hotel Billing System (Smart POS) | React, JavaScript, Firebase

- **Application Engineering:** Engineered a React POS web application integrating real-time billing, dynamic menu management, and profit-tracking features.
- **Security Integration:** Implemented secure authentication and role-based access control to protect business data.

Tamil Learning Web App | MERN Stack, Responsive Design

- **Platform Development:** Built a responsive educational web application with secure, separated dashboards for administrators and students to manage educational units and track progress.

FuturePath 3D – Career Explorer | *React, Firebase, 3D UI*

- **Platform Creation:** Created an interactive, 3D career guidance platform targeting post-12th-grade students across India.
- **Data Visualization:** Visualized complex paths, allowing users to explore comprehensive course lists (Engineering, Medical, Arts, Commerce, etc...) with Firebase managing backend updates.

Sri Raghavendra Mess Platform | *HTML, CSS, JavaScript, Responsive Design*

- **Digital Storefront:** Designed a mobile-optimized digital storefront and bulk-order management interface for a local South Indian restaurant to streamline customer catering inquiries.

ArloTechX Promotional Platform | *UI/UX Design, Frontend Development*

- **Campaign Design:** Designed a futuristic promotional campaign featuring premium UI/UX, animated vertical videos, and text-free background elements tailored for social media engagement.

Fluento – 30 Day English Challenge | *JavaScript, HTML, CSS, Authentication*

- **Platform Development:** Built an interactive learning platform featuring user authentication and progress tracking to help users master English fluency through daily speaking and listening tasks.

Interactive Chess Engine | *JavaScript, HTML, CSS Grid*

- **Game Logic:** Programmed a browser-based chess game enforcing standard movement logic, automatic pawn promotion, and strict validation to prevent illegal check moves.

All-in-One Smart Calculator | *JavaScript, HTML, CSS, DOM Manipulation*

- **Utility Development:** Developed a web utility featuring 24+ complex calculators utilizing advanced client-side mathematical algorithms and local storage integration for session data.

Developer Portfolio | *HTML, CSS, JavaScript*

- **Portfolio Architecture:** Architected a responsive, high-performance personal portfolio to catalog full-stack and AI/ML projects, showcasing frontend design principles and digital branding.

CERTIFICATIONS, ACHIEVEMENTS & LANGUAGES

- **Certifications:** Microsoft Applied Skills (Azure AI Language, AI Research Agents); UiPath Automation Developer Associate; Salesforce Certified (2x); Earned 60+ LinkedIn Skill Badges.
- **Achievements:** Deployed 10+ applications with 99.9% uptime; mentored 15+ university peers in Python and DSA.
- **Languages:** Tamil (Native), English (Professional), French (Elementary).
